<sup>2</sup> The House adopted the Young-Hirono amendment that struck the prohibition on funds being spent on Education for Native Hawaiians and Alaska Native education equity programs. However, it did not increase funding for the overall School Improvement account, and thus maintained the \$67.6 million cut to School Improvement Programs. The distribution of this cut among school improvement programs would be determined by the Department of Education.

<sup>3</sup> In addition to the discretionary funded maximum award, there is a mandatory add-on of \$690. Thus the maximum award under the current CR is a total of \$5,550, while the maximum award under HR 1 would be \$4,705; a cut of \$845 or 15.2%.
